Certificate in Quantitative Finance

Gain the **quant skills** and unlock your door to **success**

TimesPro, CQF International's designated India partner, brings to you Certificate in Quantitative Finance, a globally recognised professional qualification in quant finance and a benchmark in the financial services industry.

Delivered online by globally recognized experts, the CQF program includes:

- Three optional primers to refresh your mathematical, finance, and programming skills.
- Six modules and a range of advanced electives to give you the skills needed to succeed in quant finance.
- Lifelong Learning library to keep you up to date on the latest quant finance techniques throughout your career.

The emphasis is on teaching current, real-world techniques you can apply with confidence from the moment you learn them. The program is constantly evolving to reflect current employers' needs and comprises a comprehensive syllabus covering quant finance and advanced machine learning techniques. Awarded by the CQF Institute, the program is delivered by Fitch Learning, a leading global training company with centers in London, New York, Singapore, Hong Kong, and Dubai. With thousands of alumni in over 90 countries, the CQF is highly regarded by employers globally.
